Tetyana Solotska from Ukraine participated in The Kodaira Art Festival in 2012. She then taught making beautiful Ukrainian art craft called Pysanky, decorated egg shells, at KIFA in 2013 and 2015.

Just like other Ukrainians living in Japan, she is so concerned with the dire situation her mother country is facing now and wishes to do something to help the people in Ukraine. Her artist friends feel the same way. KIFA also wants to do our part in helping the situation and plans to host the charitable event.
